British Motor Heritage Limited is proud to announce the re-introduction of brand new bodyshells for the mini classic model.

**ORIGINALITY:** All bodyshells produced use **Original press dies** to ensure that all panels are produced to achieve the high standards required by British Motor Heritage and you the customer.

**Original assembly jigs** - direct from the Longbridge Assembly Plant, after the shortest of retirements, inspected and refurbished, and now back into service at British Motor Heritage's Witney factory.

**Original technical data and specification** have been used to check engineering detail, process and quality for all parts and assemblies

**VALUE FOR MONEY:** Whether the bodyshell is used for concours rebuild or to reshell a treasured mini classic to your personal and unique specification, the assurance of the body's build integrity makes a reshell the number one option for ease of build and value for money.
