## BMC wins Alpine Rally -and how! [MinipassionMini.com](http://MinipassionMini.com)

Another cliffhanger! But that's the way we like it. The tougher the rally, the more convincing the proof. And the "Alpine" is without doubt the hardest and toughest event on this year's calendar. It features some 37 mountain passes, a few still icebound, and a 900-mile dash through foothills that test suspension and roadholding to the uttermost. BMC's combination of toughness and reliability won through again - and is yours to enjoy in *any* BMC car. Austin · Austin-Healey · MG · Morris · Riley Vanden Plas · Wolseley
