

NOT EVERYBODY GETS TO LIVE IT UP IN THE RITZ

MinipassionMini.com

The new Mini Ritz is going to be seen by a lot of people, but, regrettably, only driven by a few.

It has the kind of style that everyone will notice, but it comes in a Limited Edition of a select 2,200, and the price is a pleasant surprise at £3,799 (excluding number plates and delivery).

Naturally its distinctive silver bodywork, with chrome detailing, its deft interior colour coordination, lively performance and high-life trim are going to make the Ritz the talk of the town.

But while everybody's going to be talking about it, will you be one of the few talking from experience?
