

**RUBERY OWEN Motor Division**

*more than meets the eye*

*Unseen by tens of thousands of proud owners—the sub-frame on the ADO15, never-to-be-forgotten code for the Austin and Morris babies, was one of the toughest propositions ever taken on by a Black Country Supplier. In the end we thought up a 5-station Multi-head Automated Spotwelding machine to stick all the bits together in a little more than a minute. RO production engineering underlies many a motor engineering miracle.*

Manufacturers of vital components
